PROFESSIONAL PROFILE

Experienced and passionate fundraising, campaigning & brand strategist. Trusted by clients and colleagues to deliver results and smash fundraising targets in response to a wide range of briefs and challenges.

A track record of being at the leading edge of innovation, and widely recognised for launching mobile fundraising in the UK, US and Australia.

Working with many of the top UK and US charities has resulted in the development of a breadth of skills including delivering campaign strategies & budgets, pitching, audience profiling, data analysis, client servicing, business planning, product development and project management.

A problem solver by nature, I can flex my style to the task at hand and equally love working under pressure and approaching something for the first time.

A thought leader in the third sector and confident public speaker. I regularly appear at leading sector conferences, focusing in particular on how innovation and diversity are critical for future prosperity.
