## Senior Strategist

Senior Strategist with six years of experience in developing and executing comprehensive marketing strategies. I excel in harnessing empathy, insight, data, and creativity to tell stories that would build brand preference and deliver business growth. I've delivered strategies on highly impactful campaigns for top brands like Blue Band, Google, Godrej, Guinness, Imperial Leather, Jack Daniel's, Premier Cool, ServiceNow and VMware.

Constantly seeking to understand markets, brands and individuals at the deepest levels is what fuels my love for strategy. **HeyHuman's** belief in the power of human brands offer the prospect to develop works that will help people find happiness and meaning in a world of increasing chaos. I am interested in the role because it's an exciting and challenging opportunity to harness modern commercial creativity to tell brand stories that would influence consumers choice and deliver business impact. Lastly, I get to create works for Guinness Africa again.
